Under the banner of DCCI Foundation, the Chamber will be further equipped to contribute more in enhancing skills by establishing educational institutions, providing vocational trainings and extending social services especially to the vulnerable section of the community. DCCI Foundation actively involved in social and CSR activities.

## **Projects of DCCI**

### **1. SUPER Project**

Dhaka Chamber of Commerce & Industry (DCCI) has started a new Project named "Strengthening Urban Public-Private Programming

for Earthquake Resilience (SUPER)" Project funded by European Civil Protection and Humanitarian Aid Operations (ECHO) under the framework of partnership with ActionAid International Italia Onlus (ActionAid Italy), ActionAid Bangladesh (AAB) and Dhaka Chamber of Commerce & Industry (DCCI). Initially, this is a 14-month-long project. The aim of the project is to increase collaboration and multi-stakeholder initiatives engaging the private sector in creating more resilient urban communities in Bangladesh.

The SUPER project has been designed to maximize this opportunity as well as contribute to minimizing the existing gap in the humanitarian architecture of the country. Though the main focus of the project is Earthquake Disaster Risk Management (EQDRM) the project will contribute to the overall system.

The SUPER project has established a Private Sector Emergency Operation Centre (PEOC) in DCCI premises to activate a Private Sector Working Group under HCTT and a learning sharing platform in coordination with other humanitarian actors including UN clusters ensuring synergy among and promoting public-private DRR initiatives.

## **2. Enhancing Export Capacities of Asian LDCs for Intra-regional Trade Project:**

DCCI-ITC Project for Enhancing Export Capacities of Asian LDCs for Intra-regional Trade is funded by ITC, aims at increasing exports of Small and Medium-sized Enterprises (SMEs) from Bangladesh including 6 Asian LDCs to China to take advantage of Asia's largest and most dynamic import market, as a stimulus to boost intra-regional trade. During this year, under this project support, five (3) companies have received online training on "building export capacity in exporting to the Chinese market" and due to COVID-19, the participants will participate in the international fair (virtual fair) titled "China International Import Expo (CIIE)" this year.

## **3. Export Launchpad Bangladesh:**

The Export Launchpad Bangladesh, a project jointly funded by International Islamic Trade Finance Corporation (ITFC) of the Islamic Development Bank (IDB) group and Global Affairs Canada

(GAC) through its Women in Trade for Inclusive and Sustainable (WITISG) project, is designed to help SME exporters in Bangladesh to take full advantage of international market opportunities (including duty-free and quota-free access through the Market Access Initiative), and thus contribute to economic growth and poverty reduction in the country. The jute and processed food sectors are the main areas to focus for Bangladesh. The project has 2 components. The beneficiaries of the first component, funded by ITFC, will be the technical trade support officers of TSIs/TPOs/BSOs in Bangladesh. The primary direct beneficiaries of the second component, funded by GAC, will be the SMEs in the identified sectors in Bangladesh. SMEs will include businesses managed both by men and women. To achieve this goal the Export Launchpad Bangladesh programme will train national trainers, who, in turn, will provide training and coaching the SME entrepreneurs in Bangladesh.

#### 4. SheTrades Project:

The SheTrades in the Commonwealth project aims to increase economic growth and job creation in Commonwealth countries by enabling increased participation of women-owned businesses in international trade. The International Trade Centre (ITC) works towards creating “trade impact for good” by fostering women entrepreneurship through inclusive and sustainable development of small and medium-sized enterprises (SMEs). ITC’s SheTrades initiative works with partners from around the world to unleash the economic power of women.

As a part of the project, ITC worked with partner Business Support Organizations (BSOs) to support those providing better services for women entrepreneurs. To achieve this objective, ITC has delivered a number of capacity building activities to equip BSOs to design, develop and deliver more inclusive business support services. As a part of these activities, DCCI officials and members have participated in two different workshops and three online training under this project.

## Major Events of DCCI

To celebrate 50 years of founding anniversary of DCCI, the Chamber organized an international business conference in 2008 tried to address some of the critical issues and exchanged views among pundits to outline possible economic scenario for the next 15 years.

SME Financing Fair, held in 2009 aimed to create awareness among the entrepreneurs about new and available financing schemes and source to help bridging the gap between SME entrepreneurs and financial institutions.

In 2010, DCCI has taken a visionary initiative to help address key challenges and opportunities facing Bangladesh from the business and industry perspective. "Bangladesh 2030: Strategy for Growth" outlined the idea that strong fundamentals Bangladesh would set the foundation to become of the 30<sup>th</sup> largest economies in the world by the year 2030.

To position Bangladesh and its vibrant private sector in the world through initiating appropriate branding strategy "Positioning Bangladesh: Branding for Business" was held in 2012. The conference aimed to stimulate private sector to invest and encourage policy makers to frame out friendly policies which would help explore the potentials of businesses to position Bangladesh in the global arena.

in 2013, DCCI took an initiative of creating 2000 entrepreneurs in the country with the support of Bangladesh Bank. In order to motivate our young generation to become entrepreneurs, DCCI took this timely effort. Bangladesh Bank accredited DCCI to conduct trainings for the new entrepreneurs. The entrepreneurial activities create incremental wealth which is a precondition to economic growth.

Bangladesh achieved an exemplary growth rate. To chalk out futuristic strategies to facilitate the advancement of untapped investment ambience in Bangladesh for sustainable development an attempt to break the dawn of new age through "New Economic Thinking: Bangladesh 2030 and Beyond" was taken back in 2016.

In 2018, to celebrate the 60th anniversary of DCCI, the chamber organized an international Business conference titled "Destination Bangladesh". Destination Bangladesh as a whole indicates a relentless journey for leading our economy to a new trajectory as well as creating economic leverage for other economies in the world.

In 2021, to promote Bangladesh as an attractive trading and FDI destination to global business, DCCI jointly with Ministry of Commerce organized an international summit titled "Bangladesh Trade & Investment Summit-2021". 552 companies from 38 countries participated in this 7-day-long summit where 369 B2Bs were successfully held.

## BANGLADESH ECONOMY: A BRIEF OVERVIEW

The economy of Bangladesh has performed well in comparison to many developing countries despite having global economic slump due to the Coronavirus pandemic. When the global GDP fell to 2.5% in 2019 and shrank by 4.3% in 2020, the GDP growth of Bangladesh marked 3.45% in FY2020. In 2020, Bangladesh was considered as the 3rd largest performing economy, according to IMF. Economy has consistently progressed with 7% growth for the past few years until COVID hits backed by strong economic fundamental, compounding export and growth in many socioeconomic fronts and evolving private sector. Due to unprecedented resilience noticed in the economy amidst this recent crisis, Bangladesh has been considered as top 5th resilient economy in the world and top first resilient economy in the Asia. The ongoing Russia-Ukraine crisis, along with the adverse impact of the COVID-19 pandemic, is having a worldwide spillover effect on commodity and financial markets, trade flows, price, and exchange rates. However, economic resilience and active participation of the private sector have been able to withstand external shocks and steer the economy smoothly towards the ultimate goal of becoming a developing economy by 2026 followed by a developed economy by 2041. As a result, business confidence and economic activities remained buoyant in FY2022, aided by well-supportive monetary and fiscal policies. The GDP has increased to USD 460.22 billion with USD 2687 per capita income at current prices for FY2022, according to Bangladesh Bureau of Statistics (BBS).

### Economic Growth and its key Sectors

Bangladesh economy has been consistently performing well with above 6% of GDP growth since FY2010-11 to up until COVID-19 outbreak happens. The growth rate elevated to 7.88% in FY2018-19. Although COVID-19 impact, dollar price hike, inflationary pressure and global ongoing crisis in economy, the country's economic growth trend increased due to timely initiative and policy measures. In FY2021-22, the real GDP growth was 7.10% which was 6.94% in previous fiscal year.

SNAPSHOT OF BANGLADESH ECONOMY FY 2021-22

Per capita GDP and per capita national income stood respectively at USD 2,687 and USD 2,793 in FY 2021-22. The domestic savings (Gross) stood at 25.22% of GDP and national savings stood at 29.35% of GDP for the same period. The gross investment stood at 32.05% of GDP in FY2021-2022 where public and private investment accounted for 7.53% and 24.52% of GDP, respectively.

The economic achievements are reflected in the GDP ranking of the world. According to World Economic League Table, Bangladesh is now the 34th largest economy and 2nd largest economy in South Asia Regions due to its macroeconomic stability, strong remittance flows and robust export market. If the current trend of economic development in Bangladesh continues, it will be the 20th largest economy in the world by 2037, according to the Center for Economics and Business Research (CEBR), a UK-based economic research organization. And, IMF also projects that Bangladesh will exceed many developing economies like Netherlands, Thailand, Singapore, Denmark, UAE and Malaysia by 2025 hitting the USD 500 billion GDP benchmark. This projection shows tremendous economic potential of the country in the decades to come.

The growth rate of major sectors in constant price is given below for portraying the scenario of macro-economy.

### Agriculture

In FY2021-22, contribution of this sector to GDP was 11.61% which was 12.07% in FY2020-21. During FY2021-22, the contributions of major agricultural sub-sectors like crops and horticulture, animal farming, forestry and related services, and fishing to GDP reached 5.46%, 1.91%, 1.72% and 2.53% respectively in contrast to 5.70%, 1.98%, 1.75% and 2.64% in FY2020-2021.

### Industry

The contribution of industry to GDP is 36.92% in FY2021-22, which was 36.01% in previous fiscal year. The main contributor to the industry's share in GDP is the manufacturing sector which has 24.29 % share in total industrial share in GDP in FY 2021-22, up from 23.36% in the previous year. Electricity (including gas) and Construction hold respectively 1.23% and 9.54% of the industry's share in GDP in FY2021-22, which were 1.25% and 9.40% in FY2020-21 accordingly.

### Electricity and Power

Government has undertaken immediate, short, medium and long-term plans to meet the increasing demand of electricity and also targets 60000 MW power generation using both renewable and non-renewable energy with a priority on clean and renewable energy by 2041. The installed generation capacity of the country has increased to 25,700 MW in FY2021-22 including captive and renewable energy from 15,953 MW from FY2017-18 whereas it was 20,383 MW in FY 2019-20 .

## Service Sector

The contribution of service sector to GDP and sectoral growth rate of GDP is 51.48% and 6.26% respectively in FY2021-22, which was 51.92% and 5.73% respectively in previous fiscal year. The service sector in Bangladesh comprised of several other sub-sectors. In service sector, the shares of wholesale and retail trade, transportation and storage, financial and insurance activities, real estate activities, public administration and defence, education, human health and social work, and other services were 15.24%, 7.34%, 3.19%, 8.12%, 3.45%, 2.69%, 3.40%, and 4.67% respectively compared with 15.06%, 7.44%, 3.22%, 8.39%, 3.52%, 2.68%, 3.32%, 4.85% in the previous fiscal year. The shares of wholesale and retail trade, education, human health and social work in the service sector increased by 0.18%, 0.01% and 0.08% respectively. On the contrary, the reduction in the shares of transportation and storage (0.10%), real estate activities (0.27%), public administration and defence (0.07%) and other service activities (0.18%) in service sector has been observed. However, the sectoral growth rate of GDP is increasing in the service sector.

## Monetary Sector

Private sector credit growth increased by 13.66% (y-o-y) in FY22 whereas 8.35% credit growth was attained in FY21. Bangladesh Bank (BB), country's central bank has taken several initiatives to contain money supply to the market by reducing its credit growth to the private sector. BB set a credit growth of 14.1% FY2022-23. Nominal deposit rate increased to 4.13% in October 2022 from 4.05% in August 2021. The weighted average nominal lending rate came down to 7.18% in November 2022 from 7.33% in June 2021. The interest rate spread (the difference between the lending rate and deposit rate) also dropped to 2.96% in November 2022 from 3.20% in June 2021, indicating an improvement in banking sector's efficiency. Besides, BB raises the repo rate by 25 basis points from 5.75% to 6.00% to rein in inflation in Half Yearly Monetary Policy Statement for FY23.

## Export

Export volume in FY2021-22 increased by 34.39% to USD 60.97 billion, which was USD 45.37 billion in FY2020-21. In FY22, RMG export experienced (knitwear and woven garments) 35.35% growth. The export of Ready-made garments has contributed to the lion's share (81.82%) of the country's export. During FY2021-22, the highest export was 20% in the USA followed by 15% in Germany, 9% in UK, and 6% in Spain.

### Import

Import Payments of Goods and Services in FY2021-22 grew by 44.23% to USD 89.34 billion compared to USD 61.94 billion in FY21. This increase was driven by the increase in import of Mineral fuel, mineral oil and products of their distillation bituminous substances, Cotton, Nuclear reactors, boilers, machinery and mechanical appliances, industrial raw material, intermediate goods, consumer goods, capital machinery and machinery for miscellaneous industries etc.

### Balance of Payment

The country's trade recorded a deficit of USD 28.37 billion in FY22. Current account balance also recorded a deficit of USD 18.69 Billion in FY22. The overall balance recorded a deficit of USD 5.4 Billion in FY22 against the surplus of USD 9.3 billion in FY21.

### Foreign Exchange Reserve

In FY2021-22, the foreign exchange reserve of Bangladesh stood at USD 41.83 billion which was 9.83% less than the corresponding period of previous year's USD 43.39 billion.

### Remittance

Remittance is a pivotal source of bagging foreign exchange earnings for Bangladesh. During FY2021-22, remittance inflow stood at USD 21.03 billion which is 15.13% less than the corresponding previous fiscal year. Remittance inflow in Bangladesh has always shown a steady increase. However, the remittance inflow dropped in FY22 primarily due to ongoing financial upheaval caused by the prolonged Russia-Ukraine war which started in the first quarter of 2022.

## Foreign Direct Investment (FDI)

FDI net inflow reached USD 3.44 billion in FY22, which was USD 2.51 billion in previous fiscal year, recording 37.05% positive growth. FDI trend in Bangladesh exhibited an increasing trend up to FY 2018-19. Due to decreased financial activity worldwide during COVID19 outbreak in the beginning of 2020, the FDI shrank substantially in FY 2019-20 and FY2020-21. However, the FDI trend has recovered to its pre-pandemic level in FY2021-22 when the world slowly recovered from pandemic-induced shocks and shifts in financial activity.
